

Dear _____,

Congratulations! You have received a gift copy of the Pro version of our story planning software, Campfire! Campfire Pro comes with character development, plot design, and worldbuilding tools for writers of all kinds. We release updates every month, free of charge, so the software continues to improve over time. We are happy to welcome you into the Campfire community.

To install Campfire, please follow the instructions below:

1. On the computer you'd like to install to, go to www.campfiretechnology.com/download-pro.
2. Click the Download for Windows or Download for Mac button, depending on your operating system.
3. Run the downloaded file to install Campfire.

Once you have the software installed, you will have to activate it. Run Campfire and it will ask for your license key. Please enter the key below and you will be ready to use Campfire!

Your Campfire license key:

To learn more about how to use Campfire, visit www.campfiretechnology.com/learn, where we provide a variety of helpful tutorials. Also, please subscribe to the email newsletter on our website or follow us on Facebook (@campfiretechnologyllc) so you can be alerted when new updates are released!

Once again, welcome to the Campfire community! We hope you enjoy the software. If you have any questions, don't hesitate to contact us at www.campfiretechnology.com/contact.

Sincerely,

Jason Louro
